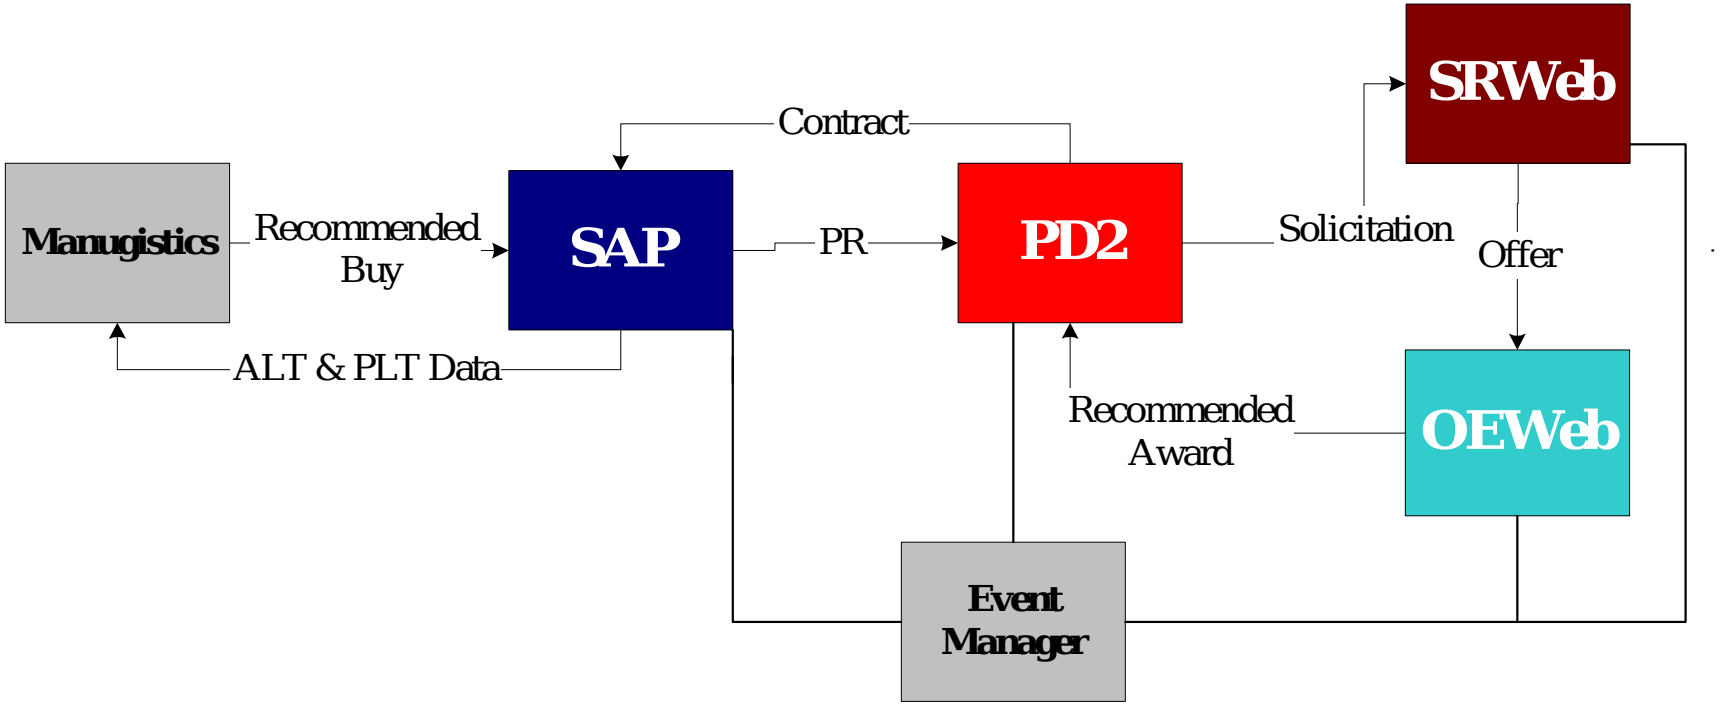
DLA BSM Suite of Software

Procurement Process



What is PD²

Procurement Desktop Defense (PD²):

- The contract writing tool that replaces DPACS
- Supports the procurement cycle from requirements phase through the award of the PR
- The official repository of contractual documents

What is Acquiline?

Acquiline is a web-based modular suite of acquisition solutions that work seamlessly with the Department of Defense's (DoD) Standard Procurement System (SPS) to automate manual processes and facilitate paperless acquisition in the DoD. Three Acquiline modules are:

- *PRweb* (Purchase Request web)
- *SRweb* (Solicitation and Response web)
- *OEweb* (Offer Evaluation web)

What is *SRweb*?

Solicitation and Response web (*SRweb*) is a web-based application that provides the capability to:

- Search for and view solicitations (Request for Quotations (RFQs), Request for Proposals (RFPs), and Invitations For Bids (IFBs))
- Submit a secure quote online for RFQs
- Search, view, revise and delete submitted quotes
- Search for and view awards

Acquiline *SRweb* Benefits

- Seamless integration with the Standard Procurement System (SPS)
- Immediate solicitation posting
- Integration with FedBizOpps
- Eliminates data re-entry
- Eliminates document reproduction costs
- Intuitive Web-based technology
- Reduces acquisition costs
- No cost to the vendor

Acquiline *SRweb* Required Software

- Compatible with the following browsers:
  - Microsoft Internet Explorer v5.5 and higher
  - Netscape Navigator v6.1 and higher
- Requires the following software:
  - Microsoft 97 or higher
  - Adobe Acrobat Reader

Course Agenda

During this training you will learn how to:

- Register a vendor account
- Maintain both vendor and user accounts
- Search and View Solicitations/Amendments
- Set Aside Overview
- Perform Fast Track Quoting
- Submit Quotes Online
- Use the Batch Quoting Format
- Search, View and Edit Quotes
- Search and View Awards/Modifications

SRweb

Solicitation and Response (*SRweb*) is a web-based application that provides the capability to search for, and view Request for Quotations (RFQs), Request for Proposals (RFPs) and Invitations For Bids (IFBs). *SRweb* also provides the capability to submit a secure quote online for RFQs. Once a quote has been submitted, *SRweb* provides the capability to search, view and revise or delete the submitted quote. In addition, *SRweb* provides the capability to search for and view awards.

SRweb "Contact Us" Technical Help Request

VENDORS - SUBMITTING E-MAIL FOR TECHNICAL ISSUES TO Srwebtechq@hq.dla.mil PLEASE INCLUDE YOUR 1) CAGE CODE, & 2) TYPE OF INTERNET BROWSER THAT YOU ARE USING (IE or Netscape). THIS INFO WILL HELP US TO BETTER HELP YOU!

Need HELP With SRweb..??..

Check out the "SRweb User's Guide" under the SRweb Links - Help, on the left side of this page.

Kickoff Date for Posting Solicitations is August 01, 2002

No solicitations will be posted until then. The system was launched prior to that date so that vendors could submit their registrations

Register As New Vendor:

SRweb will pre-fill certain registration information (company name, business address, DUNS number, point of contact (POC), contact telephone number, and contact e-mail/fax address) from the CCR the first time a representative for a CAGE starts the *SRweb* registration process. The information cannot be changed on *SRweb* but will be updated from the CCR.

If your CAGE has already been registered on *SRweb*, the name and email address of the person designated as your super user will be provided.

SRweb Super User:

The super user acts as the account administrator for a CAGE. They can add additional users, provide usernames and passwords, modify existing users, and control the logon status of each user for their CAGEs through Account Maintenance. The representative who starts the *SRweb* registration process has the option to accept their CCR registration POC as the *SRweb* super user, or they can designate another person to act as the super user for the CAGE.

Submission of Representations and Certifications:

SRweb on-line registration requires the submission

E-mail Address:
E-mail addresses for receipt of solicitation and award information is required by *SRweb* on-line registration. The super user is the only person authorized to change or update this information. It is very important that they maintain and update this information to keep it current, complete, and accurate.

Processing the Registration:
A CAGE's initial registration will be processed immediately. A username is specified during registration and and will appear on the registration confirmation page, and a password will be sent separately to the e-mail address of the super user. If a CAGE is already registered on *SRweb*, the name

Manufacturers Representatives/Agents:

If you are currently authorized to quote for other CAGE codes, *SRweb* will require you to update their registration information before you can quote for these accounts. If you wish to add a new CAGE that you may quote for, you must submit a copy of a letter or agreement authorizing you to quote on their behalf, signed by the principal/contractor granting the authorization to srweb@dla.mil (email) or xxx-xxx-xxxx (fax).

Usernames and Password:

Username and password are case sensitive. Passwords can be either system generated or manually created. The user must adhere to the following rules when manually creating passwords:

Description:	**Examples:**
English Upper Case Letters	A,B,C
English Lower Case Letters	a,b, c
Westernized Arabic Numerals	0, 1, 2
Non-alphanumeric (special characters)	{}[],.<>;:'"?/|\`~!@#$%^&*()_+=

Your password should not be a "common" word (for example, it should not be a word in the dictionary or slang in common use). Your password should not contain words from any language, because numerous password-cracking programs exist that can run through millions of possible word combinations in seconds.

A complex password that cannot be broken is useless if you cannot remember it. For security to function, you must choose a password you can remember and yet is complex. For example, Msi5! YOld (My Son is 5 years old) or IhliCf5#yN (I have lived in California for 5 years now). At a minimum your password must be at least eight characters

Passwords may be changed at anytime through account maintenance. All users should change their passwords periodically to ensure their privacy. **Note:** Super users can change any password for the account, while individual users can only change their own password.

Registered User Login:

SRweb will time out after 15 minutes of no activity on a secure page and return you to the login screen.

Logging out and closing your browser minimizes the risk of unauthorized access by removing all *SRweb* identification information from your machine.

Welcome to the BSM Supplier Information Resource Center (SIRC)

Dear Supplier:
The Defense Logistics Agency (DLA) is preparing to implement Business Systems Modernization (BSM). BSM will replace our legacy material management systems, to include our procurement systems, with commercial-off-the-shelf (COTS) systems at Defense Supply Center Richmond (DSCR), Defense Supply Center Philadelphia (DSCP), and Defense Supply Center Columbus (DSCC). This change incorporates world-class business practices into our processes by focusing on supply chain management and building stronger business relationships with our customers and suppliers.

The first release of BSM, also referred to as Concept Demonstration, will be operational in the summer of 2002 for about five percent of the items within our commodity groups. This initial release will provide an opportunity for DLA, our customers, and our suppliers to use the new technology and processes to improve our supply chain effectiveness. Subsequent releases will increase the number of items managed through BSM and expand the system functions with full operating

Currently, suppliers can visit the DLA-BSM website, http://www.dla.mil/J-6/bsm for general BSM information. During the coming weeks, this website, as well as the DSCC Internet Bid Board System (DIBBS) and DLA Procurement Gateway website, will be updated to provide additional information to our suppliers.
This letter is the first of many communications that will be forthcoming from DLA to our supplier community. Please "bookmark" the DLA website for future handy reference.

Our suppliers will be integral to the success of BSM. You are key players in meeting our customers' requirements. By being informed and aware of these

WEB FLIS

Federal Logistics Information System

Web FLIS Home | Main Menu

Welcome to the WebFLIS BSM Release One Inquiry Menu

This BSM Inquiry should help you in determining if a particular National Stock Number (NSN) or Federal Supply Class (FSC) is included in the BSM Release One Effort.

Are you a BSM Vendor or Customer?

Enter a National Stock Number (NSN) to retrieve a list of associated Part Numbers/Reference Numbers - Commercial and Government Entity (CAGE) Codes

or

Enter a Federal Supply Class (FSC) to determine if the item(s) are included in the BSM Release One Effort.

Enter BSM NSN

Go

Enter FSC code

Reset

Suppliers may review and correct data inaccuracies at:
https://www.gidm.dlis.dla.mil/igirder/

CAGE Code(s)- Part Number(s)/Reference Number(s) may reflect obsolete data on items that have not been procured recently. DLA personnel will correct the incompatibilities before the next procurement of the item.
